

# The Inn at the Village Project Workshop

The Town of Mammoth Lakes has received an application for the third and final building to complete the 8050 complex in the North Village Specific Plan. The application is for a hotel facing Minaret Road on top of the existing parking structure between the Fireside condominiums and the 8050 project. The hotel is proposed to include a high quality restaurant, spa, outdoor pool terrace, enhanced landscaping, and up to 73 rooms. The project includes a request for increased density, increased height, and a reduction in the street setback.

For additional information on this project, including plans and elevations, please visit the Town's website at:
