

Old Mammoth Place Concept Review Workshop

The Town of Mammoth Lakes has received a concept review application for modifications to the Old Mammoth Place project. The Old Mammoth Place project is a condo-hotel, mixed-use project that was approved in 2010. This project would redevelop the existing Sierra Nevada Resort & Spa site.

The concept review proposal would increase the size of the Old Mammoth Place condo-hotel units, increase building height to up to 6 floors, and eliminate on-site workforce housing units.

For additional information on this project, please visit the Town's website at:

www.townofmammothlakes.ca.gov/index.aspx?nid=665
