**Long Valley Mineral Material Site
(LVMMS) Reclamation Operation
RIGHT OF ENTRY- Indemnity Agreement
Date _____**

(Permits Require Yearly Renewal)

To: Town of Mammoth Lakes
P.O. Box 1609
Mammoth Lakes, CA 93546

Attn: Mr. Grady Dutton
Director of Public Works

The Long Valley Material Mineral Site is being operated in cooperation with the United States Forest Service (USFS) to provide a community service by providing a location for construction projects to deposit earth materials and beginning to reclaim the pit area that has been operated for over 40 years.

Right of Entry for dumping materials is provided to named contractor or agency and he/she agrees to the following.

1. An executed (no-fee) Right of Entry – Indemnity Agreement Facility User Permit is required to be on file with the Town.
2. Normal hours for the Site are 8:00 AM to 4:30PM Tuesday, Wednesday, and Thursday. Hours and operation days may be adjusted depending on facility demand. Call Ron Fansler at (760) 934-8989 ext. 279 or Jamie Robinson at (760) 934-8989 ext. 283 for information regarding the current hours for the facility.
3. All users of the facility are required to provide daily load tickets that include trucking company, construction site contractor, and project name and address where the material is from, date, and quantity.
4. The only materials being delivered, dumped and accepted at the site include dirt, soil overburden, subsoil, and rock.
5. Material delivered to the site shall be moistened to provide for dust control.

6. Materials that will not be accepted include asphalt, some concrete, rebar, woody material, and any other form of construction debris. All such material must be deposited in the local landfill.
7. It is further agreed that in the event material is dumped on the site and is determined to be unacceptable by the Town, it will be promptly removed at no cost to the Town or the Forest Service.
8. The User shall assume the defense of and indemnify and save harmless the Town of Mammoth Lakes, the USFS (United States), and each of their directors, officers, employees, and agents, from and against any and all claims, losses, damages, expenses and liability of every kind, nature and description, directly or indirectly arising from the delivery and the materials that are delivered and placed at the Site that do not meet the requirements of item 4 above.
9. A copy of the Right of Entry – Indemnity Agreement Facility User Permit shall accompany any and all vehicles involved in the depositing of materials at the (LVMM) Site.
10. The USFS has required the Town to collect fees as part of the Special Use Permit to cover costs for the operation and reclamation activities. The fees are due on demand and must be paid in full for any project in Town to receive a final grading inspection. After 25 days, late fees and interest will accrue at the maximum rate provided by the law.
11. The contractor is required to hand a padlock and key over to the Town of Mammoth Lakes pit attendant before the contractor starts the trucking operation. When the contractor is ready contact the pit attendant and the lock will be placed into the lock sequence at the gate.

By my signature on this agreement, I certify, under penalty of perjury under the laws of the State of California, which I have read and understand the requirements for the use of LVMM Site the information provided is true and correct.
