

# Mammoth Lakes Main Street Plan

## Shaping the Future of Downtown & Main Street

### Public Workshop Agenda

April 2, 2013

<b>I. Introductions</b>	<b>6:00pm</b>
<b>II. Presentation</b>	<b>6:15pm</b>
<ul style="list-style-type: none"> <li>• Purpose of the project</li> <li>• What we've heard to date</li> <li>• Review framework, connectivity and character areas</li> <li>• Review initial street design concepts</li> </ul>	
<b>III. Activity 1: Review Maps</b>	<b>6:45pm</b>
<b>IV. Activity 2: Review Street Designs</b>	<b>7:00pm</b>
<b>V. Activity 3: Consider Phased Development</b>	<b>7:20pm</b>
<b>VI. Wrap Up and Next Steps</b>	<b>7:45pm</b>

## Team Activity Instructions

As a group at your table, please consider the following questions:

### 1. Do the maps match the vision for Main Street?

One or more of the maps described below are provided on your table. Please use pens or markers to edit the maps.

- A. Framework Map.** This map identifies key physical improvements to promote the vision for Main Street. Please discuss as a group and note edits or comments on the map.
- B. Connectivity Map.** This map identifies key street and pedestrian connections suggested as part of the Downtown Concept for Main Street and Draft Mobility Plan, as well as several additional concepts. Please discuss as a group and note edits or comments on the map.
- C. Character Area Map.** This map identifies areas where existing and future character may differ along Main Street. Please discuss as a group and note edits or comments on the map.

# Team Activity Instructions (Cont.)

## 2. Which street designs best match the vision?

A package of 11x17” sheets at your table illustrates several design options for the area of Main Street that currently has frontage roads on either side. Please use pens or markers to provide comments on the design options.

## 3. How could Main Street redevelop?

A map indicating an area along Main Street is provided on your table, as well as a package of 11x17” sheets with “game pieces” illustrating buildings, parking, public spaces and paths. Please use the provided scissors and glue sticks to cut out game pieces and paste them onto the map to illustrate possible future development. You may also cut and paste images from the package of 8.5x11” sheets to illustrate the character of development. When pasting game pieces and images, consider:

- A. Phasing.** Redevelopment along Main Street will happen over time as individual properties redevelop. Place the first game pieces to illustrate how new development could occur while preserving some existing buildings.
- B. Long Term Vision.** Once you have illustrated how the first phase of development could occur, place game pieces and images to illustrate the long term vision for Main Street.

## 4. Do You Have Other Comments and Ideas?

Please use the space provided below, or attach additional sheets if you have other comments and ideas. You may also email comments and ideas to Jessica Morriss at the Town of Mammoth Lakes: [jmorriss@ci.mammoth-lakes.ca.us](mailto:jmorriss@ci.mammoth-lakes.ca.us)
