News from the Town Manager

Town Council Meeting – February 15

The next regular meeting of the Mammoth Lakes Town Council has been scheduled for Wednesday, February 15, 2017 beginning at 6:00 p.m. in Suite Z. Visit the [Streaming Media Archive](#) to review the previous meeting minutes or view the webcast Town Council meeting.

Commission/Committee Meetings

Feb. 14 Recreation Commission Meeting, Suite Z, 9:00AM

Old Man Winter Keeps On Delivering!

A note from Mayor Richardson...The Eastern Sierra is experiencing white-out conditions and our snow removal crews are working overtime to keep up with the extreme conditions. I would ask everyone who doesn't absolutely need to be driving to please stay where you are and allow our snow removal crews (Town, private, CalTrans and MMSA) to do their jobs unhindered.

If you have to drive, make sure you have chains, drive slowly and heed to all posted no parking signs. Please note that chains may be required even on 4WD vehicles (R3 chain restrictions). Our Town employees are responding to a number of public and private concerns. We are requesting additional outside resources and have begun to pre-plan for the next series of storms.

To acknowledge all of the snow removal operators, police officers, fire department personnel and road crews for their exceptional efforts during these challenging times, give them a thumbs-up sign when you see them driving pass – it will make their day.

Thank you for looking out for each other, we as a community need to work together!

Sincerely,

Mayor, Shields Richardson

California Conservation Corps Tackles Snow Removal in Mammoth Lakes

A crew of 15 California Conservation Corps members from the CCC's Tahoe Center are assisting the Town in areas that pose a significant threat to life and property. Led

by supervisor Zach McHenry, the CCC crew is based at the Community Center on Forest Trail and will be here for approximately 10 days.

At the request of the Town of Mammoth Lakes, corpsmembers are working with the Mammoth Lakes Fire Protection District, AmeriGas and Eastern Sierra Propane to clear record-setting January snow accumulations from approximately 40 prioritized risk-based propane tanks that are covered by up to 20 feet of snow. The primary concern of the Town's agencies is the risk to public safety from heavy snow potentially breaking off the first or second-stage regulators and piping on the tanks or homes, and thereby causing propane leakage that would pose a significant threat to life and property.

The CCC crew will also remove snow around fire hydrants throughout town and from public buildings with flat or low-pitch roofs such as the Community Center or other public facilities. The crew has also assisted the Town with filling hundreds of sandbags to help mitigate localized flooding.

The California Conservation Corps is a state agency created in 1976 by Governor Edmund G. Brown Jr. Members of the CCC are young men and women between the ages of 18 and 25 who join for a year of outdoor work as well as emergency response -- floods, fires, earthquakes, oil spills and more. For details about the program and job opportunities, visit www.ccc.ca.gov.

Have You Experienced Substantial Flood/Snow Damage?

The Town is collating flood or snow damage from the weather related events that began on January 7, 2017 to residential property or business owners in the Town of Mammoth Lakes. If your property experienced physical damage or your business suffered substantial economic losses, please contact the Town directly at (760) 965-3632. Please be prepared to leave a short, concise message. Your call will be returned in a timely manner. Based on the level of property damage or economic loss, the Town may recommend you complete a U.S. Small Business Administration (SBA) survey document in order to assess the level of assistance.

With the ratification by Town Council on February 1, 2017 regarding the existence of a local emergency declared by the Town Manager by proclamation on January 30, 2017, the U.S. Small Business Administration (SBA) may provide financial assistance to eligible property owners or businesses if all criteria are met. SBA provides two programs. The first is the Economic Injury Disaster Declaration and the second is a Physical Disaster Declaration. Criteria for both declarations must be met before financial assistance will be considered.

The completion of the worksheet or survey is not an application for assistance. The purpose of the survey documents are to gather damage information in order to assess the level of assistance. For additional information about this program or to complete the *Estimated Disaster Economic Injury Worksheet For Businesses or Damage Survey*, please click on the link below or contact Diana Jacobson, Permit Technician at (760) 965-3632 or via email: djacobson@townofmammothlakes.ca.gov.

Temporary Overnight Parking Program Extended

The Town of Mammoth Lakes is extending designated temporary overnight parking sites this weekend for lodging guests and visitors in need of parking. Due to the excessive snowfall this January and the limited availability of hotel and condominium parking, the Town has identified six locations throughout the community, with the majority of sites conveniently located near or adjacent to transit routes. Visitors are requested to park their vehicles in the designated areas for the weekend and use the complimentary transit service.

Temporary overnight parking locations can be found on the attached map and are as follows: Hillside Parking Lot, Tavern Park & Ride, Mammoth Ice Rink - Upper Lot, Mammoth Creek Park, Volcom Brothers Skate Park and the Mono County Court Parking Lot (very limited availability - lot is not plowed during snowstorms on weekends). Visitors will not be ticketed during their stay but are asked to vacate the temporary overnight parking sites by no later than Monday morning.

The Mammoth Lakes Police Department is reminding citizens that there is no street parking from November 1 through April 30. Vehicles found parked in violation of these ordinances are subject to receiving a parking citation and/or in some cases, vehicles may be impounded at the owner's expense.

For additional information about this program please visit www.townofmammothlakes.ca.gov, follow Eastern Sierra Transit Authority on Twitter @estabus or review the winter transit map and routes online at: www.estransit.com.

Winter Parking Restrictions In Effect

The Mammoth Lakes Police Department is reminding citizens that there is no street parking from November 1 through April 30. Vehicles found parked in violation of these ordinances are subject to receiving a parking citation and/or in some cases, vehicles may be impounded at the owner's expense.

Be Snowsmart This Winter!

Be Snow Smart this winter by observing a few simple rules: <http://www.townofmammothlakes.ca.gov/index.aspx?nid=510>

Mammoth Lakes receives some of the heaviest snowfall in California. To make your stay that much more enjoyable throughout the winter season, we ask that you slow down, keep a safe distance when following snow removal equipment, adhere to chain restrictions and park your vehicle on your driveway or lodging property well inside the orange snow stakes. Parking on all streets and roads within the Town of Mammoth Lakes is prohibited from November 1st thru April 30th. For updated road conditions and chain restrictions call (800) 427-ROAD or simply dial 511. During severe winter storms, listen to KMMT 106.5FM or Sierra Wave 92.5FM and call 911 in case of emergency.

Town Installs Hawk Signal in The Village

The Town of Mammoth Lakes has installed a High-intensity Activated Crosswalk (HAWK) to improve pedestrian safety at the Minaret Road crosswalk adjacent to The Village. The HAWK signal is a pushbutton-activated pedestrian signal designed to aid pedestrian crossing at a mid-block crosswalk and reduce the amount of delay for vehicles. The HAWK signal differs from conventional traffic signals because it only

becomes operational when activated by a pedestrian, allowing for normal traffic to flow unimpeded until pedestrians need to cross and minimizes wait time for vehicular traffic. Data suggests the pedestrian activated safety devices led to a 29% reduction in total crashes, a 69% reduction in pedestrian crashes, and a 15% reduction in severe crashes (2010 FHWA before-and-after study).

What Drivers Should Know: Pedestrian hybrid beacons are only activated by pedestrians wishing to cross a street press the signal button. If the lights of the beacon are dark, vehicles can proceed through the crosswalk. Flashing yellow lights usually last around three seconds, during which the driver should prepare to stop. A solid yellow light indicates the driver must stop. Once the light turns red, pedestrians will cross. Flashing red lights indicate that if there are no pedestrians in the walk, the driver may proceed through the walk with caution. After the flashing red lights, the signal will go dark again, and vehicles may freely pass through the intersection again. Additional information may be found at the Town of Mammoth Lakes Offices, 437 Old Mammoth Road, Suite R or on the website.

Mammoth Creek Park West Draft EIR Public Review Period Closes Feb. 13

Pursuant to State of California Public Resources Code (PRC) § 21091(a) and the Guidelines for Implementation of the California Environmental Quality Act (CEQA Guidelines), as amended to date, as Lead Agency, the Town of Mammoth Lakes is circulating for public review a Draft EIR for the proposed Mammoth Creek Park West New Community Multi-Use Facilities Project.

A 45-day public review period for the Draft EIR began on Friday, December 29, 2016 and will end on February 13, 2017. Depending on the number of comments, we anticipate the Final EIR will be completed in early March. Staff will then schedule a PEDC meeting on March 8th and a Town Council meeting on March 15th for consideration of the design review and certification of the EIR.

Copies of the Draft EIR are available during the 45-day public review period at the following locations:

1. Town of Mammoth Lakes, Community and Economic Development Department, 437 Old Mammoth Road, Suite R, Mammoth Lakes, CA 93546;
2. Town of Mammoth Lakes website: www.townofmammothlakes.ca.gov (News Flash item)
3. Mono County Library, 400 Sierra Park Road, Mammoth Lakes, CA 93546.

All comments and responses to this notice should be submitted in writing to: Sandra Moberly, Community and Economic Development Manager, Town of Mammoth Lakes, Community and Economic Development Department, P.O. Box 1609, 437 Old Mammoth Road, Suite R, Mammoth Lakes, CA, 93546, (760) 965-3633, or via email at smoberly@townofmammothlakes.ca.gov.

Staff recommends the Commission and public, review the project website: www.planmcp.com for the most up to date information regarding the Community Multi-Use Recreation Facilities project at Mammoth Creek Park West.

Old Mammoth Road Limited Transit Service

New Monday-Friday fixed route transit service (the Old Mammoth Road Limited) began Monday, January 23, 2017. This new service is intended to address concerns

raised by area residents and businesses following the cessation of the Gray Line service last month and is a pilot program service which will operate through the spring in order to gauge demand and ridership from the area.

The service will be focused on employees traveling to work in the Minaret Village Mall and Mammoth Hospital area, and students/persons wishing to transfer to other fixed routes including the Purple, Red, and Green Lines. The new midweek service will operate three runs in the morning (7:13am, 7:45am and 8:05am) from Aspen Village, two afternoon return runs from the school area to Old Mammoth (1:52pm and 2:45pm from Mammoth High School), and one evening return run from the Hospital and Minaret Village Mall area to Old Mammoth (5:05pm).

For more information, check ESTA's website at www.estransit.com, or phone (760) 924-3184. Stops serviced are as follows: Aspen Village, Lower Red Fir/Old Mammoth Road, Juniper Springs Resort Meridian/Old Mammoth Road (transfer to Purple, Red, Green), Mammoth Elementary School, Mammoth High School and the Mammoth Hospital.

TV 51 has moved!

The Town's dedicated channel, TV 51 has moved to Channel 18. The move was necessitated by Suddenlink and their local programming needs. TV Channel 18 will still continue to provide access to all the Town's meetings with live and taped coverage of Town Council, and advisory body meetings such as the Planning and Economic Development Commission and Recreation Commission. For meeting dates and times, please visit: www.townofmammothlakes.ca.gov.

Projected Average Resort Occupancy

Friday, February 10, 2017	93%
Saturday, February 11, 2017	99%
Sunday, February 12, 2017	72%
Monday, February 13, 2017	54%
Tuesday, February 14, 2017	51%
Wednesday, February 15, 2017	53%
Thursday, February 16, 2017	64%
Friday, February 17, 2017	90%
Saturday, February 18, 2017	94%
Sunday, February 19, 2017	92%

If you're a lodging property and would like to sign up to report your numbers, please contact John Urdi at JUrdi@visitmammoth.com or (760) 934-2712 ext. 1259

Please remember that the projected occupancy is calculated in order to assist the business community with staffing levels and product ordering. The actual occupancy percentages are reported from the lodging industry to the Town of Mammoth Lakes Finance Department.

Community News

Stay Out of Avalanche Prone Areas

With the recent avalanche activity and impact it continues to have throughout the county, the Mono County Sheriff's Office is asking that all backcountry skiers stay out of avalanche prone areas, particularly in the McGee Creek and Crowley Lake areas. Such activity can trigger another slide, therefore endangering residents and motorists on the highway.

U.S. Revolution Tour - Feb 7-12

The Revolution Tour has proved to be a progressive venue for top junior riders to take to the competitive stage in Halfpipe, Slopestyle, and Big Air. Designed as a stepping-stone for athletes to make the transition from the grassroots events to the elite level, the tour will showcase top amateur riders competing in the Unbound's Main Park and famed Super Duper Pipe.

Now Playing - "Baskerville" at the Repertory Theatre

Mammoth Lakes Repertory Theatre (MLRT) and Artistic Director Shira Dubrovner announce the opening of Baskerville, playwright Ken Ludwig's (Lend Me a Tenor) hilarious spin on the Sherlock Holmes story of the Hound of the Baskervilles, arrives Feb. 9th through the 19th. Directed by Drina Durazo (All the Great Books Abridged and Every Christmas Story Ever Told and then some), this riotous romp features a cast of five L.A. actors, one portraying Sherlock, one portraying Dr. Watson, and 40 other characters played by one woman and two men, including Mammoth's favorite L.A actor, Brian Stanton (Blank, Every Christmas Story Ever Told, and more).

"After the success of Ludwig's Lend Me a Tenor, we were looking for another of his farces that would be a great addition to our schedule," said Dubrovner. "I think we found it with Baskerville. Having Durazo on board to direct the show with the cast she's assembled will make for a really fun February—something we can all use."

Time to get your deerstalker cap on—the play's afoot! Comedic genius transforms Arthur Conan Doyle's classic The Hound of the Baskervilles into a murderously funny adventure. The male heirs of the Baskerville line are being dispatched one by one. To find their ingenious killer, Holmes and Watson must brave the desolate moors before a family curse dooms its newest heir. Watch as our intrepid investigators try to escape a dizzying web of clues, silly accents, disguises, and deceit. Does a wild hellhound prowl the moors of Devonshire? Can our heroes discover the truth in time? Join the fun and see how far from elementary the truth can be.

"Baskerville is a madcap sendup of what you might hold dear about that Doyle classic, done up in the style of The 39 Steps." - DC Theatre Scene

"The joy in watching [the] witty new play Baskerville: A Sherlock Holmes Mystery is not in solving the crime but in the plethora of wildly imaginative characters you meet along the way. By dispensing with British formality, Ken Ludwig has given us a play that is ingeniously funny and will keep you guessing until the curtain call." - Broadway World

Tickets are available online at www.MammothLakesRepertoryTheatre.org for \$20 general admission, \$18 for seniors and students, or \$22 at the door (sorry, no discounts).

The Felici Trio Presents "Love is in the Air" – Feb. 11

Chamber Music Unbound presents the Felici Trio performing "Love is in the Air" featuring music from George Onslow, Claude Debussy and Johannes Brahms on Saturday, February 11, 2017 from 7:30pm. Tickets are \$22 for general admission, \$17 for seniors and \$7 for students. Buy a winter season pass for \$95 (5 concerts). Show is at the Cero Coso Community College.

2017 Village Championships

Put away your powder skis for the day and welcome back The 2017 Village Championships. The next event is on Tuesday, February 14 at noon on the fabulous Fascination Race Arena. The remaining events are March 21, and April 11. It's easy to sign up...just drop by the Race Department office any time before the races (all registrations, including a signed liability release form, must be received no later than 11:30am on VC race days). This is a FREE event! There will be several different divisions to compete in as an individual. Sorry, there are no team events this season. This is a fun, community event series that is open to everyone! As always, races will be followed by an after hour party (TBD) with video and results.

Winter Recreation: Play it Safe

The Inyo National Forest has some timely advice for winter recreation enthusiasts. Winter recreationists must plan their adventure considering the current conditions, the weather forecast, and the terrain and geography that will be traveled. Knowing what to expect will make your winter visit safer and much more enjoyable.

Anyone who may be traveling in potential avalanche terrain is encouraged to seek education and training resources; travel with a shovel, beacon, and probe; and have the knowledge required to use these tools. Visit the Eastern Sierra Avalanche Center website for the most recent information on snowpack and conditions www.esavalanche.org.

Ice skating is popular as well, but recreationists must carefully choose when they go onto the ice. No lake is certain to be safe with an adequate ice depth. Even though it has been cold, the ice is not necessarily deep enough. Cooling and warming trends can affect the ice significantly—recreationalists are responsible to assess their risks before going out onto the ice.

Dress warmly for cold weather, including layers, wicking base layers, hats and gloves. Day-time temperatures can get warm with the sun and cool quickly in the evening. As always, don't underestimate weather in the High Sierra – expect that weather conditions can change rapidly.

The forest requires that all dogs are on a leash in all developed recreation sites, including groomed trails. Leaving pet waste behind on a groomed trail or in a developed recreation area is littering.

Groomed trails at Shady Rest

The Shady Rest Winter Grooming program is underway thanks to the amazing snow this season and creative partnerships. The groomed winter trails throughout Shady Rest are located right at the entrance to Town and are accessed from the Welcome Center (currently closed due to flooding) and Ranger Station, near the historic cabin. This looped experience is shared with a variety of users, including snowshoers, nordic skiers and dog walkers, so please be mindful of others and share the trails.

Weather permitting, the trails are groomed 5 days a week and are free and open to the public. For more information, visit www.mammothtrails.org.

Parks and Recreation Department Highlights

Get Your Skates On Mammoth Lakes!

Join us at the Mammoth Ice Rink this February and skate rentals are on us! That's right, present the Mammoth Ice Rink – FREE Skate Rentals coupon from the 2016/17 Mammoth Coupon Book, pay the regular admission rate and your skate rentals are free. Some restrictions apply (non-holiday).

Weather permitting, the Mammoth Ice Rink is open 7-days a week with public skating offered every weekend from 12-3pm, 3:30- 6:30pm and from 7-10pm. Enjoy satellite radio, evening fire-pits, Friday night learn-to-skate lessons, hot snacks & drinks, youth hockey clinics and adult pick-up games all on refrigerated and professionally maintained ice. For the complete winter schedule, rates and promotions, please visit www.mammothicerink.com or call (760) 965-3695 during operating hours. We'll see you at the Mammoth Ice Rink - bring your coupon!

New Adult Programming at the Community Center – CURRENTLY ON HOLD

NEW to the Community Center is the Turbo Kick Fitness Class which runs every Wednesday from 6:30-7:30pm. Also at the Community Center is the ongoing Pilates/Yoga program at the Community Center. The program runs every Tuesday starting at 6:30pm. For toddlers we are offering Toddler Time at the Community Center every Tuesday morning with Angela and Victoria from 9:30-11:00am.

Instructional Basketball

Our popular Instructional Basketball program is currently running every Thursday evening at the Mammoth Middle School MPR from 5:15-6:00pm. This is an introductory level program for kids who are interested in the sport of basketball. This FREE program is designed for children of all ages. For the little participants, we even bring custom sized hoops to play on. Parental involvement for kids under 5 is required. Thursday, February 9 is our second session; however, registrations are still welcome!

Sports Officials Needed For Indoor Soccer!

The Parks and Recreation Department is now hiring sports officials for the upcoming winter Adult Indoor Soccer Leagues. Interested applicants should apply online or call Lindsey at (760) 965-3699 for more information. The job posting can be viewed online.

Public Service Announcements

Mammoth Lakes Fire Protection Identify Potential Safety Issues

With the record monthly snow accumulation, and with Mammoth Lake's two statistically largest months yet to come, the Town of Mammoth Lakes and Mammoth Lakes Fire Department would like to remind residents of several life safety issues. These include the accumulation of large amounts of snow/ice sitting on roofs, the blockage of vents for heating and hot water appliances, and the maintenance needed to safely use propane. Additionally, we request that residents keep addresses visible and hydrants available for use.

With the large accumulations of snow, our roofs are already supporting a tremendous load. Some signs of excess snow weight on the roof include exterior/interior doors that do not open or close easily, cracks or bulging that occur in sheetrock walling, and bowing in timber members of ceilings/walls. Existing structures should be able to structurally withstand our anticipated snow loads, but it is recommended that roofs have some snow removed from them to prevent excessive snow accumulation.

As the temperatures rise roofs will shed snow and ice, especially metal roofs, and any cornices that have developed will begin to fall. In addition, as the snow on the roof begins to melt, icicles and ice dams will form and can pose a significant hazard. Be extra careful where you walk and where children play, especially at all exits and entries. Safely removing the snow off of roofs is also issue and if you do not feel that you can accomplish the task, it is highly recommended that a licensed contractor be sought to perform the work.

At the same time, vents for any fuel powered heating appliances can be blocked or damaged by the deep snow or as snow sheds from the roof. Home owners, landlords, and tenants need to make sure that vents for these appliances are cleared of snow and inspected so that a buildup of carbon monoxide inside does not occur. Since carbon monoxide is odorless, colorless, and mixes well with air, blocked vents allow accumulations of the deadly gas to build up inside structures if not properly vented. It is highly recommended that carbon monoxide detectors be installed inside structures in order to alert occupants to the build-up of carbon monoxide gas.

Fire Code requires that all bedrooms have two means of exiting. Traditionally, this is accomplished by way of a bedroom access door and window. During the winter, first floor windows tend to become covered by snow and require attention. Resist the urge to cover up lower level bedroom windows with plywood and keep these exits open by keeping them accessible. If you own a complex or live in a rental or commercial unit, the owner is responsible to keep these exits open. The windows do not have to be cleared to ground level, but need to provide a route for exiting should the bedroom door not be available. If you have concerns with the snow accumulations in front of ground floor windows, bring this issue to the attention of your landlord, manager, or owner. The Fire Department will also be looking for infractions of this code.

For those homeowners that use propane, several responsibilities come with its use. The top of the tank needs to be routinely dug out to allow for quick access to the shutoff valve and to allow for regulator venting. In addition, make sure that unprotected sections of all exterior gas pipes are cleared of snow and ice and not subject to shedding snow and ice from your roof. Downward snow pressure from snow settlement and falling snow and ice from roofs has caused many pipe sections

to crack resulting in leaks. Unfortunately, if the leak occurs under the snow, the snow traps the gas and it may be some time before the leak is detected. In the meantime, the gas will seek openings in the foundation or structure of a building and can create an explosion potential should the unburned gas come into contact with a source of ignition. The propane regulations that were implemented in the early 1990's have cut down on the number of building explosions and with adequate routine maintenance, we should be able to limit the number of future exposures.

Lastly, make sure that your address is clearly visible from the street. In times of emergencies, precious time is lost trying to find the proper structure when no address can be located. In addition, there are fire hydrants located throughout town that are used by the fire department in the event of a fire. The Fire Department is requesting interested individuals to routinely shovel out the hydrant nearest to their home. If maintained frequently, the amount of work is minimal and may even be shared by several neighbors. If interested in participating, please contact Jody Holl at 934-2300 for information about the program and the location of the nearest hydrant if it is not readily apparent.

Thank you for helping us keep you safe! If you did not place new batteries in your smoke detectors when we switched to daylight savings time, now is the time to do it. If you would like any additional information on these topics or anything else pertaining to the Fire Department, please feel free to contact the Fire Station at any time at (760) 934-2300 or the Town of Mammoth Lakes at (760) 965-3630.

Beware of Deer on the Roads

The California Department of Transportation (Caltrans) would like to notify motorists that deer are out and about in the Eastern Sierra. Due to the snowy conditions, deer are venturing out onto the roadways to escape from the snow. Motorists should watch for deer as they are commuting especially during the dawn and dusk times of the day. Slow down and be vigilant!

Ways to Prevent a Collision with a Deer:

1. Slow Down. Motorists should take it slow especially with the low temperatures and icy conditions.
2. Watch for the rest of the gang. Deer are pack animals, and rarely travel alone. If a deer crosses in front of you, chances are there are more nearby. Slow down and keep an eye out for more deer darting across the road.
3. Timing is everything. Deer are most active at dusk and dawn: periods when your vision is most compromised. Slow down and stay alert, especially after dark.
4. Wear your seatbelt. It may not prevent a collision, but if the inevitable happens a seatbelt can reduce injuries.
5. Look. First, look for the road signs. The yellow diamond shaped signs with the deer on it are placed in high-traffic areas for deer. You may also spot a deer because their eyes will brightly reflect a car's headlights, making them easier to spot.
6. Stay Center. On a multi-lane road, the center lane is your safest bet for avoiding a deer collision, as long as your local traffic laws permit it. This gives deer plenty of space; and in case your vehicle does startle them, it gives you more time to react if one darts onto the road.
7. Stay the course. If you see a deer, brake firmly and calmly, and stay in your lane. Swerving could make you lose control of your vehicle and turn a bad situation much worse. Not to mention, deer are unpredictable, and you could swerve directly into their changed path.

8. Honk! Some experts recommend that one long blast of the horn will scare deer out of the road. Do not rely on hood whistles or other devices designed to scare off deer — studies have shown them to be largely ineffective at minimizing traffic incidents.

What to do if you hit a deer.

1. Pull to the side of the road as soon as it is safe to do so.
2. Turn on your hazard lights and remain in the vehicle until you are sure it is safe.
3. Call emergency services if injuries are involved or the local police for property damage.
4. Stay away from the deer. If it is still alive, it could be confused, injured and dangerous if approached. When contacting the authorities, let them know if the deer is in a dangerous spot on the road so that it can be removed.

For more deer migration information visit the Caltrans District 9 webpage: <http://www.dot.ca.gov/d9/deer.html>

Town Of Mammoth Lakes Updates Phone System Taking Advantage Of Digital 395

The Town of Mammoth Lakes is excited to announce that the aging old analog phone system has been upgraded to a new digital Voice over Internet Protocol (VoIP) system. The introduction of Digital 395 into our community allowed the Town to benefit from a robust fiber-optic network which provides connectivity between Town facilities. The network provides the opportunity to leverage Voice over Internet Protocol (VoIP) based communication to replace the aging phone system, which not only offers better connectivity in a modern and maintained system, but also reduces costs.

The new phone system will offer a significant improvement in functionality and ease of use for Town staff while providing more efficient integration between all seven of the Town's facilities, offering staff the ability to call any employee at any location simply by dialing the extension. Additionally, the system will provide a variety of options for call handling and routing, voicemail, auto-attendant/phone tree options, and mobility. All of these enhancements will greatly help Town staff with their day-to-day responsibilities of serving the public and providing high quality customer service. Improved access to Town Departments and employees and connectivity between Town operations will enhance public access and Town responsiveness.

As a result of these improvements, all of the Town's phone numbers will be changing, effective Thursday, June 23, 2016. Each department will have its own direct phone line and each employee will have a new extension number.

Below is a list of the new department phone numbers:

- Administration - (760) 965-3600
- Airport - (760) 965-3620
- Community and Economic Development - (760) 965-3630
- Engineering - (760) 965-3650
- Finance - (760) 965-3660
- Public Works Yard - (760) 965-3680
- Parks and Recreation - (760) 965-3690
- Police Department - (760) 965-3700

The new VoIP system will replace the Town's 20-year old Nortel analog phone system which is no longer supported, difficult to maintain, and not interconnected between Town locations. The new system furthers the Town Council's goal of using enhanced technology to improve Town operations, enhance customer service, and reduce costs.

Please be patient with us while we transition to our new system. For a full list of employee phone numbers, please visit our website at www.townofmammothlakes.ca.gov.

Important Information for Verizon Customers

As of April 1, Verizon customers in California, Texas, and Florida will now be serviced by Frontier Communications. Residents should expect to have the same exceptional FiOS TV, Internet, and phone service from the new telecommunications provider.

Existing Verizon customers can request more information regarding their Internet service provider transition by clicking on this link: <http://internet.frontier.com/fios-network-acquisition/>. If you have questions regarding establishing Frontier service or switching to Frontier from your current service provider, please click on the following link: <http://internet.frontier.com/California/>

Town's Owner-Occupant Housing Rehabilitation Program

California Department of Housing and Community Development ("HCD") has awarded the Town of Mammoth Lakes a \$186,047 grant to administer a Housing Rehabilitation Program. Mammoth Lakes Housing, Inc. (MLH) as the "Program Operator," will administer the program. The funding may be used by property owners to update homes, attend to deferred maintenance, and address energy efficiency.

Property owners in Mammoth Lakes can benefit from this subsidy in the form of deferred payment loans, below market interest rate loans, and grants. Owners may use program funds to rehabilitate their home for the following eligible improvements:

- 1. Correct health and safety issues;**
- 2. Converting to current Uniform Building Code;**
- 3. Energy conservation improvements;**
- 4. Extension of useful life** (includes repairing siding, sheet rock, painting, new flooring, new cabinets, new interior doors, gutters and foundation upgrades and repairs); and
- 5. General property improvements.**

To qualify for program funding, an existing homeowner must occupy the home and the household income must be equal to, or less than the following:

1 person	\$43,250
2 person	\$49,400
3 person	\$55,600
4 person	\$61,750
5 person	\$66,700
6 person	\$71,650
7 person	\$76,600
8 person	\$81,550

Units must be located within the Town of Mammoth Lakes in order to qualify for rehabilitation funds. General property improvements that enhance the overall exterior appearance of the property will be limited to 15% of the rehabilitation loan amount.

Funds will be allocated on a 'first come, first served' basis until all funding is exhausted. All interested Mammoth Lakes property owners are encouraged to immediately contact Mammoth Lakes Housing for additional information, eligibility requirements, and an application.

Eastern Sierra Transit Expands Mammoth Express Route!

Eastern Sierra Transit is making your commute between Bishop and Mammoth a little easier. Starting Monday, July 6, 2015, there will two additional runs on the Mammoth Express route to accommodate an 8 to 5 work schedule in Mammoth. The bus will depart Bishop Kmart/Vons Center at 6:50am. There is a 5:20pm and now 7:00pm departure from Mammoth to accommodate those who may need to work a little later or want to stay in Mammoth for dinner.

The new departure times are:

North from Bishop - Kmart/Vons			
6:50am	7:30am	1:00pm	6:10pm

South from Mammoth - McDonalds			
7:50am	2:05pm	5:20pm	7:00pm

The Mammoth Express also stops at Tom's Place (by request only) and at the Crowley Lake Community Center. All busses have bike racks available on a first come first served basis.

Commuting with Eastern Sierra Transit is very economical. There are several pass options available to reduce the cost of commuting even further. Discounted one-way fares and 10-puch passes are offered to seniors 60+, disabled, and youth 5-16.

MAMMOTH EXPRESS FARES

		Adult	Disc	10-Punch	10-P Disc	1 Week	2 Week
Bishop to:	Mammoth	\$7.00	\$6.00	\$63.00	\$54.00	\$52.50	\$98.00
Tom's Place to:	Mammoth	\$4.00	\$3.50	\$36.00	\$31.50	\$30.00	\$56.00
Crowley to:	Mammoth	\$3.00	\$2.50	\$27.00	\$22.50	\$22.50	\$42.00

Sierra Conservation Project and Town of Mammoth Lakes Partner to Expand Condominium and Business Recycling Program

The Sierra Conservation Project, Inc. (SCP) and Town of Mammoth Lakes are pleased to announce the expansion of the current condominium, commercial and recreational area recycling programs in the Town of Mammoth Lakes.

"This long-standing and successful partnership between the Sierra Conservation Project and the Town enabled us to submit and receive a substantial \$108,000 CalRecycle grant to expand on-going recycling programs within the community that benefits our residents, visitors and wildlife," stated Peter Bernasconi, Acting Public Works Director for the Town of Mammoth Lakes.

The Sierra Conservation Project is working in partnership with the Town of Mammoth Lakes and the Department of Resources Recycling and Recovery (CalRecycle) to provide an additional 30 bear proof containers to the remaining Condominium complexes in town that currently don't have a recycling program in place. In addition, CalRecycle grant funds will enable SCP to upgrade all commercial bear proof containers at restaurants, bars and other business locations in town, including the enhancement and placement of recycling infrastructure in the Lakes Basin and at key park locations in Mammoth Lakes, such as the Whitmore Recreation Area and Shady Rest Park.

Recyclable materials make up a large percentage of the waste produced in our residential complexes and businesses," stated Brian Robinette, owner of SCP. "These community-based programs aim to divert recyclable materials from our local landfill, while also educate our residents and visitors on the need for convenient recycling programs. We are confident that by providing start-up infrastructure for these complexes and businesses it will help make program implementation affordable and reduce the environmental impacts of each resident and guest," said Robinette.

To register for the Condominium Recycling Program, please visit www.recyclesierra.com or www.Townofmammothlakes.ca.gov.

For additional information on the **Condominium and Business Recycling Program**, please contact Sierra Conservation Project at (760) 914 0115 or e-mail Brian@recyclesierra.com.

Would You Leave A Loaded Gun on the Floor?

If you have children in your home, hopefully you would not! However, a new threat to the health of our children is emerging. These are e-liquids, sold legally in stores and online in small bottles that may be carelessly and casually left around the house, used for the regular re-filling of e-cigarettes.

The danger is from the nicotine content in these vials of "juice". Children can happen upon a vial and ingest it. These fluids come in flavors and bright colors that are attractive for kids – cotton candy, cherry, chocolate, and bubble gum among others. In addition, nicotine is absorbed through the skin, presenting a risk from a broken vial.

Electronic cigarettes, called e-cigarettes, are drug delivery devices originally designed to look like regular tobacco cigarettes. Now they are larger reusable gadgets that can be refilled with liquid, generally a mixture of nicotine, flavorings, and solvents. It is estimated that roughly four million Americans use these battery powered devices. They have been hailed by proponents as a way for addicted smokers to get their nicotine fix without sucking in the thousands of carcinogens found in traditional cigarettes.

However, the evidence of their effectiveness in assisting persons in weaning off their nicotine addiction is less than stellar. In addition, evidence is rapidly mounting that

they are serving as a "gateway" for young teens into the world of nicotine addiction. A recent study found nearly 1.8 million youth had tried e-cigarettes, and the number of middle and high school e-smokers doubled in one year. No wonder the industry targets the young who will be potential customers for decades to come! Their goal – to have the number of e-smokers quadruple in the next few years.

So how bad is the risk of exposure? Nicotine is a naturally occurring powerful neurotoxin, and in its potent liquid form, can be ingested or absorbed through the skin. Tiny amounts can cause vomiting, seizures, and even death. A teaspoon of even the highly diluted liquid can kill a small child.

A dose of 50 to 60 milligrams (mg) is potentially fatal for an adult; a 30 pound child could die from 1.36 mg. A vial of e-juice as commonly sold in retail stores is 17 milliliters, and with a 2.4% concentration would have 408 mg of nicotine. This year it is estimated that 1 to 2 million LITERS of liquid will be sold, much of it on the Internet. A liter of 10% concentration costs about \$110, a gallon \$195, and one company even offers a 55 gallon drum!

Nationwide, reports of accidental poisonings linked to e-liquids in 2013 jumped 300% from 2012, and is on pace to double again this year. Most cases are under the age of 4. A shop owner says that "We tell them that this stuff is poisonous. We do everything we can to protect the consumers, but at the end of the day, you leave a loaded gun on the floor, and your child gets hold of it, it's not gonna be the gunmaker's responsibility." A CEO of e-cigarette franchises says "It's the wild, wild west right now." There is no FDA regulation so far. So at the moment, if you are a user, your child has to go no farther than your own home to find a lethal dose of poison. Be aware of the risks, and keep vials out of reach. You are responsible for the safety of your children.

Mammoth Lakes Police Department Implementing Reserve & Volunteer Program

In an effort to off-set some of the impact resulting from the loss of 7 sworn officers, the Mammoth Lakes Police Department has been moving forward on developing Reserve and Volunteer Programs, and evaluating various forms of technology to help make the MLPD more efficient and effective. The following are some of the programs the MLPD is moving forward on:

RESERVE OFFICER PROGRAM

On February 6, the Town Council approved the establishment of pay scales for Reserve Officers. The pay will be:

- Level 1 Reserve - \$25/hour
- Level 2 Reserve - \$23/hour
- Level 3 Reserve - \$20/hour

Providing pay for Reserve Officers will make the MLPD competitive with other local agencies that have reserve programs and serve as a recruitment and retention tool.

Anyone interested in learning more about the MLPD Reserve Program should contact Sergeant Marc Moscovitz at (760) 934-2011.

VOLUNTEER PROGRAM

Many police departments benefit from active volunteer programs where trained volunteers assist police personnel by staffing front counters, completing reports, and

providing community patrols. Retired Sergeant Karen Smart has agreed to manage the MLPD's volunteer program. At some time in the future, information will be released about the types of volunteer work available and the selection criteria. Anyone interested in volunteering with the MLPD should be on the look-out for a news release announcing the start of the program.

TECHNOLOGY

The MLPD is moving forward with technological advances on several fronts. They include:

- An on-line reporting system where certain crimes can be reported on-line.
- An on-line crime and traffic report purchase program where victims of crimes and parties in traffic collisions can purchase copies of reports on-line.
- Access to surveillance cameras at the North Village.
- Surveillance cameras at the Volcom Brothers Skatepark.

The MLPD is also exploring other technology that will make the Police Department more effective in addressing crime, the fear of crime, and quality of life issues.

Free, Real-Time Property Information Now Available!

The Town of Mammoth Lakes and Mono County are proud to present ParcelViewer, the Town and County's official web-based property information system. This free, public, on-line service can be relied upon to provide convenient, accurate and up-to-date information, based on the official Assessor's data-base. Use ParcelViewer to view and print customized parcel information and maps, including:

- Zoning Information
- Property Addresses
- Complex Names/ Condo Unit Numbers
- Parcel Lines*
- Valuation Data
- Acreage
- Aerial imagery of surrounding properties and more!

Visit Parcel Viewer today at <http://gis.mono.ca.gov/parcelviewer/>

Transient Occupancy Tax (TOT) Frequently Asked Questions

Some of the most frequently asked questions about legal rentals and Transient Occupancy Tax (TOT) are:

What is a transient rental?

A transient rental is any unit that is occupied for the purpose of sleeping, lodging, or similar reasons for a period of 30 consecutive days or less in exchange for a fee or similar consideration.

Can I rent my unit as a transient rental?

Only some zones within the Town of Mammoth Lakes permit transient rentals. The following zones permit transient rentals:

- RMF-2 (Residential Multi-family 2)
- CL (Commercial Lodging)

- CG Commercial General)
- R (Resort, including master plan areas)
- SP (Specific Plan, including North Village and Clearwater)

This list is intended as a guide only. Although the above zones permit transient use generally, other regulations, such as those found in master plans, CC&Rs, or project conditions of approval may prohibit transient rental within a particular development. Generally, transient rental of single family homes is prohibited. A zoning map can be found on the Town's website.

What is transient occupancy tax (TOT)?

Transient occupancy tax, or TOT, is a 13% tax that is charged "for the privilege of occupancy of any transient occupancy facility." The tax is required to be paid to the operator of the transient occupancy facility at the time the rent is paid. It is the operator's responsibility to remit the TOT to the Town.

Do I need to pay TOT?

If you are renting your unit as a transient rental, even if it is only for one weekend a year, you need to pay TOT. This includes single family homes and other units that are not permitted to rent nightly, but may be doing so illegally. TOT shall be remitted for each night the unit is rented.

Do I need a business tax certificate?

Yes, if you are renting your unit on a transient basis.

Do I need a transient occupancy tax certificate?

Yes. You are required to purchase a transient occupancy certificate for each rental unit to post in your transient rental property. This is included as part of Schedule E or F in the business tax certificate application.

What is the difference between a business tax certificate and a transient occupancy tax certificate?

Business tax is an annual tax and is required for all business activity. The transient occupancy tax certificate is a one-time purchase that is non-transferable. This certificate is required to be posted in your transient rental unit.

Do I need a business tax certificate if all of my rentals are handled through a reservation company?

If all of your rentals are handled through a reservation company, most reservation companies will purchase the transient occupancy tax certificate and collect and remit the TOT to the Town. You may wish to check with your reservation company to confirm that this is being taken care of. If you rent your unit by owner in addition to renting with a property management company, you are also required to obtain a separate business tax certificate and transient occupancy tax certificate.

How do I apply for a business tax certificate?

The Town's website contains information regarding business tax certificates, including an application for a business tax certificate: <http://www.ci.mammoth-lakes.ca.us/index.aspx?NID=182>. Transient Rentals fall under schedule F for condominium rentals and schedule E for hotels, motels, lodges, and campgrounds.

This application can be mailed back to the Town, or submitted in person. The total cost for one unit is \$118.00 (\$65.00 application fee, \$5.00 planning review fee, \$25.00 fee to rent one unit, \$23.00 TOT certificate fee). Additional costs apply for additional units. Business tax certificates are required on or before the first day business commences; penalties will apply for late filings. If you have additional questions regarding this process please contact the Finance Department at (760) 934-8989 ext. 273.

Do I have a business tax certificate?

To find out if you have a valid business tax certificate on file, please contact the Finance Department at (760) 934-8989 ext. 273 or your property management company.

What is illegal rental activity?

Illegal rental activity is any rental activity that is not consistent with the Town's Zoning Ordinance, or any rental activity that is not compliant with the Transient Occupancy Tax Ordinance. This can include transient rental of units located in zones that prohibit transient rentals. It can also include transient rentals in a zone where it is permitted, but when the TOT is not remitted to the Town.

How can I report illegal rental activity?

If you suspect illegal rental activity, you may submit an anonymous tip via the Town's TOT hotline at (760) 934-8989 ext. 275 or on the Town's website via the Transient Occupancy Tax information page. Please include any information that you have that would substantiate the claim, along with the property address and owner's name if you have it. You may also email tot@ci.mammoth-lakes.ca.us. Note that emails are not anonymous, however, staff will do its best to keep your information private.

Questions & Anonymous TOT Hotline

If you have questions about TOT enforcement, or if you would like to report suspicious activity or rental advertisements please contact our anonymous hotline. The Town will follow-up on any reports submitted. The Hot Line Number is (760) 934-8989 ext. 275 or email your information to: TOT@ci.mammoth-lakes.ca.us.

Register for CodeRED

Residents of Mono County can register their cell phones to receive emergency CodeRED (reverse 911) alerts from Mono County. This is a county public service available to all Mono County residents so please tell your friends and neighbors in Mono County that they can register for this service. CodeRED announcements are for personal notification and will not replace CERT CAHAN notification. Here is how to sign register/sign up using the INTERNET:

- Go to monosheriff.org
- Scroll down left side panel to CodeRED community notification system;
- Click on it and follow directions.

Town Outdoor Lighting Ordinance

In 2003, the Town implemented an outdoor lighting ordinance to eliminate light pollution and preserve views of our starry skies. The outdoor lighting ordinance was adopted to encourage residents to administer a lighting system that not only

promotes public safety and night-time ambiance but to maximize energy conservation. To eliminate glare and light trespass into neighboring properties and roadways, the outdoor lighting fixtures on your property should be shielded and re-directed to shine downward or changed out to a lower wattage. More information about responsible lighting can be found at www.crlaction.org.
